

MERCURY

LOUNGE CHAIR

design Shinsaku Miyamoto
2023

The distinctive feature connoting the MERCURY lounge chair is the empty space between the tilted armrest and the rear legs in stainless steel. The lightness of the shape is emphasised by the cantilevered armrests in bent wood, while the essential metal structure, which narrows delicately towards the back of the seat, adds a touch of dynamism. The slightly padded pillows ensure comfort and at the same time enhance the purity of the lines.
